

GERMANS CONTINUE ATTACK  
ON THE FRENCH LEFT WINGCROWN PRINCE'S ARMY ATTEMPTS TO  
ADVANCE THROUGH LA GRURIE WOOD

Paris Claims Efforts Are Repulsed—Belgians Defending Antwerp Are Forced to Fall Back—Petrograd Says Battle of Augustowo Develops Into One of Extreme Violence—Czar Leaves for War Zone—Kaiser Is Near Russian Frontier.

The determined efforts the Germans are making, not only to hold their lines in the north of France, but to win back some of the territory which the allied forces have succeeded in taking from them since the great battle of the Aisne began, are indicated in the official announcements from the French war office.

The Germans have continued their series of desperate attacks on the French left wing and in the center the crown prince's army, which includes the sixteenth corps, has attempted to advance through the wood of La Grurie. But in all of these endeavors, according to the French accounts, the Germans have been repulsed, the crown prince's army even has been driven back to ward the north, a matter of perhaps a mile or two.

In Belgium, however, the Germans have been more successful, for the Belgian legation at London admits that on the east of the river Senne, the Belgian forces defending Antwerp, after a desperate resistance of five days, have been obliged to fall back to the river Nethe, so terrific has been the German artillery fire. But the declaration is made that the Belgians intend to resist the attack on Antwerp to their utmost.

The latest official communication from Petrograd describes the battle of Augustowo, in Russian Poland, as developing into one of extreme violence, the Germans supplementing their artillery fire with furious counter-attacks. In an encounter between the first division of the German cavalry and Russian cavalry the Germans are reported to have been routed with great loss, carrying their infantry along with them. The Russians have occupied Raygrod, Kalvary and Mariampol, in Poland.

The Russian emperor, according to an announcement from Petrograd, has left the capital for the war zone. The German emperor is now said to be at Thorn, West Prussia, close to the Russian frontier. Thus it would seem that the swift developments in the eastern theater of war during the last week or two have demanded the personal attention of the heads of the two countries.

**Roye Still Center of Battle.**  
London, Oct. 3.—Roye, the little town on the main road from Amiens to Noyon, the heights around which have been alternately occupied by the French and the Germans during the past week, is still the center of a battle of great violence. The Germans, who are fighting stubbornly to protect their flank at this point, have brought up reinforcements, but according to the French official communication issued this afternoon, all their attacks have been repulsed.

The action, however, is still proceeding, and upon it much depends, for if the Germans are beaten, their line of communication at Tergnier will be seriously threatened.

Of other operations on this front, which extends as far north as Arras, nothing has been disclosed since the French themselves announced that their force, which was debouching from Arras, had fallen back slightly on the east and north of that town.

**Prepare to Protect Flank.**  
There is evidence from other sources that the Germans are making preparations to protect their flank, should a retirement become necessary. They have evacuated West Flanders and their attack on Antwerp is believed by many to be designed to keep the Belgians busy and prevent them from operating on what would be General von Kluck's left, should he fall back through Belgium.

But the battle is not yet over and it may be many days before either side attains its objective. Except for the forces absolutely needed elsewhere, the Germans are maintaining their strength in France and, besides fighting off the French efforts on their right, are themselves remaining on the offensive on the French right. The army of the crown prince, which has been in the thick of the fighting since the Germans began their invasion of France, has made an attempt to slip through the wood of Lacurrie, but the French report says they were thrown back to the north of the Varennes-la-Sarraz-Vienne-la-Ville road. This road pierces the northern part of the Argonne forest, so that the French

must have made a considerable advance in this region and straightened out the line from the north of Verdun to the north of Rheims.

This attack of the crown prince's army doubtless is what the Germans referred to in their report of Friday's date, to the effect that the troops advancing in the Argonne had gained ground in a southerly direction.

In the Woivre district and on the heights of the Meuse, the French claim that their progress, though slow, continues. There apparently has been some hard fighting further south, for the German report speaks of vigorous sallies from Toul having been repulsed.

Along the center comparative calm still reigns. The Germans have been keeping up a heavy artillery fire on the British and French forces entrenched in front of them, but the British accounts say little damage has been done.

The real work is being done on the two wings and the troops in the center, who have had much fighting, are being given a respite until the moment comes for them to move again. This, of course, depends upon the success or failure of the outflanking operations.

**Belgians Say Forts Are Intact.**  
The German attack on Antwerp, which does not appear to have been a serious one thus far, apparently has not had any effect on the Belgian forts of Liere, Waelhelm and Wavre, St. Catharines. At any rate the Belgians say the forts are intact and that the Germans have been driven off with heavy losses to their side.

The operations between the Russians and the Austrians and Germans grow in interest. These armies are fighting along a tremendous line, extending from the neighborhood of Cracow, in Galicia, along the frontiers of Poland and East Prussia, almost to the Baltic sea. There is no news from the southern field, but the Germans and Austrians, instead of waiting on the line between Cracow, Czechoslovakia and Kalisz for the Russians, have advanced further into Poland. Their outposts have been reported as far east as Pictrow, ninety miles southwest of Warsaw in the north and Stompe, 32 miles south-southeast of Kielon, in the south.

A big Russian army is gathering to meet them and a great battle probably will be fought in Poland instead of on the borders of Poland and Silesia.

In the north, if the reports are to be believed, the Russians seem to have checked the German invasion from East Prussia and have compelled the Germans to retrace their steps, except on the right wing, which is still fighting around Ossowetz.

The latest report on the movements of the German emperor is that he has left Breslau, from which point the invasion of Poland was launched, for Thorn, West Prussia.

**JAMES GOODKNIGHT DIES.**  
Redbank Springs, Tenn., Oct. 2.—James Lincoln Goodknight, state clerk and treasurer of the general assembly of the Cumberland Presbyterian church, died here today. He was born in Allen county, Kentucky in 1846. Dr. Goodknight was president of West Virginia University in 1895-97 and president of Lincoln (Illinois) College in 1900-04.

**ROOSEVELT DENIES REPORT.**  
Portland, Ore., Oct. 3.—Col. Theodore Roosevelt sent a message today to William E. Johnson of the Anti-Saloon league here, denouncing as untrue reports that he had declared against state-wide prohibition, which is an issue in Oregon this year.

**ABANDON PLANS FOR HAGUE CONFERENCE.**  
Washington, Oct. 3.—All plans for holding the Third International peace conference at The Hague next year have been abandoned. This was announced today at the state department.

**SHIPPING ALMOST SUSPENDED.**  
Panama, Oct. 3.—Shipping along the western coast of South America has been almost suspended owing to the reported presence in those waters of the German cruiser Leipzig, which is reported to have sunk two British ships in the last week.

## WAR BULLETINS

LONDON, Oct. 4, 5 a. m.—A despatch to the Times from Rome says that a Rumanian sailing ship and an Italian steamer have been sunk by mines in the Adriatic with heavy loss of life.

LONDON, Oct. 4, 3:35 a. m.—The Antwerp correspondent of the Reuters Telegram Co., in a despatch timed at 11:30 o'clock Saturday night, says:

"An official communication states that two German attacks have been repulsed with heavy loss."

LONDON, Oct. 4, 2:45 a. m.—A Hamburg-American line boat has succeeded in running the Japanese blockade and has reached Tsing-Tan, seat of government of the German concession of Kiaochow with a cargo of ammunition. Such is the information contained in a message from Tien-Tsin, China, by the Weekly Despatch.

LONDON, Oct. 4, 2:06 a. m.—Lieutenant Gen. von Trotha, former commander in chief of the forces in German South West Africa, has been killed in the fighting in East Prussia, where he was in command of one infantry brigade according to a Central News despatch from Amsterdam.

ROME (via Paris), Oct. 4, 12:55 a. m.—News from Vienna says that if the removal of the capital is decided upon the government officials favor its transfer to Innsbruck as in 1848. This city is considered safer and more easily protected.

## FORMER STATE SENATOR JOHN HUMPHREY DIES IN CHICAGO

CHICAGO, Oct. 3.—Former State Senator John Humphrey, a member of the Illinois legislature for thirty years and well known as a Republican leader until his retirement from public life a few years ago, died today at a local hospital, after a two weeks illness. He was 76 years old. He was taken ill in Liverpool, England, several weeks ago while traveling abroad with his wife, son and daughter. He was best known as the author of the Humphrey street car bill, which was introduced in the legislature to enable Charles T. Yerkes to perpetuate his control of the Chicago traction lines, but the measure was defeated after a bitter fight.

He was a native of Orland, Cook county and represented the seventh senatorial district at Springfield.

## SUSPENDS SUMMARY COURT AND MILITARY COMMISSION

BUTTE, Mont., Oct. 3.—Major Donohue, commanding the national guard of Montana, which has Butte under martial law, suspended today the summary court and the military commission. He gave no reason.

As Major Donohue previously had suspended the state courts, Silver Bow county is now without legal machinery, except a special session of the district court authorized by the militia.

The military commission, prior to being suspended, sentenced one offender today to serve two and one-half years in prison for having assisted Former President MacDonald, of the Butte Miners' Union, to escape and for carrying concealed weapons.

## PERSON CASE GOES TO JURY.

Lincoln, Ill., Oct. 3.—The fate of Carl Person, labor editor charged with the murder of Antonie Musser, former chief of police of Clinton, Ill., was in the hands of the jury tonight. Frank Comerford, counsel for Person, in his final plea asked the jury to return to a verdict for hanging or acquittal. Judge Whitfield instructed the jurors to find a verdict of murder, manslaughter or acquittal.

Dealt back after seven hours deliberation the person jury appeared far from a verdict at 11 o'clock tonight. Judge T. M. Harris remained ready to receive the verdict any time before daylight.

## TRAIN ROBBER CONFESSES.

San Bernardino, Cal., Oct. 3.—A confession that he held up the passengers of a Sunset limited train of the Southern Pacific at Colton last night was made tonight by Jesse Carle, 28 years old, a Los Angeles insurance solicitor.

One dollar was all that Carle netted in the hold-up. Angered at his ill success, he fired one shot at a passenger. He then leaped off the train. Later he was caught near the scene of the hold-up, hiding in an uncompleted building.

## FEEL EARTH SHOCKS IN BRITISH WEST INDIES

St. Thomas, British West Indies, Oct. 3.—A prolonged earthquake shock was felt about 11:30 this evening throughout the windward and leeward islands. It was especially severe at Antigua, Guadeloupe, Dominica, St. Lucia and St. Vincent. No details of the damage done have been received.

RETAINS TAX ON  
CAPITAL OF BANKS

Senate Body Determines to Disregard Vigorous Protest of Bankers

## TO FINISH WORK MONDAY

Expect Revenue to Be Derived from Measure Will Amount to Approximately \$110,000,000

## RETAIN HOUSE STAMP TAXES

WASHINGTON, Oct. 3.—Retention, despite general and vigorous protests from bankers, of the proposed tax of \$2 a thousand on bank capital and surplus and elimination of the proposed taxes on straight and industrial life insurance, were members of the senate finance committee today in their deliberation on the war revenue bill which passed the house.

The committee determined to disregard the protests of bankers against the bank capital tax, believing that it was necessary and better tax than the substitute tax on checks, drafts and other negotiable paper, recommended by a subcommittee. The latter tax, it was argued, would fall upon the individual and also would be bothersome in administration.

Proprietors of moving picture theatres and small amusement places will profit by the action of the committee, which substituted for the flat tax of \$100 on all theatres, proposed in the house bill, a graduated tax of \$25 for theatres with a seating capacity of 300 or less; \$50 for seating capacity up to 600; \$75 up to 1,000 and \$100 for seating capacity over 1,000.

The committee expects to finish its work on Monday. The revenue to be derived from the measure, it is estimated, will be approximately \$110,000,000. Eliminating life insurance will mean a loss of approximately \$10,000,000 but this will more than be made up in the tax of fifty cents per horse power on automobile sales estimated to bring a revenue of approximately \$15,000,000. The tax on beer, remains as in the house bill, \$1.50 a barrel; that on sweet wines 20 cents a gallon. Dry wines, 8 cents a gallon, gasoline 1 cent a gallon.

The house bill taxes on brokers are retained, with the addition of a \$20 tax on commission merchants and an increased tax on pawnbrokers from \$20 to \$50 a year. The special tobacco taxes on dealers and manufacturers are retained, with the addition of two classifications to provide for taxes of \$48 and \$90 a year on the largest manufacturers and dealers. The house stamp taxes are retained without change, to bring a revenue of \$30,000,000.

The committee still has under casualty insurance including fire, accident and damage insurance.

## BERLIN SAYS KARLSRUHE HAS SUNK SEVEN BRITISH STEAMERS

Vienna States Austrian Advance Against the Servians Progressing Slowly, but Favorably.

London, Oct. 3.—The following official statement issued in Berlin has been received here by wireless:

"The German cruiser Karlsruhe has sunk seven British steamers in the Atlantic."

"A letter found on a Belgian officer who was captured by the Germans contained the following: 'When we re-enter Brussels we will take with us a large stock of matches to set fire to Cologne and every other place through which we pass. Henceforth we will have no more injured prisoners; everybody will be killed.'"

"It is stated from Vienna that the Austrian advance against the Servians is progressing slowly but favorably. Several Servian battalions were destroyed in a revolt among the Moslems."

"Twenty thousand Albanians have marched against Iskup (a town in the valley of Kosovo, 100 miles northwest of Saloniki) and have demanded the surrender of the town."

## MINE WRECKS STEAMER.

London, Oct. 3.—A South Shields despatch to the Central News says the Norwegian steamer Tromsø was wrecked this morning by a mine in the North Sea. Two men were drowned; the remainder of the crew, numbering sixteen, took to the boats and were landed tonight at South Shields.

## REPORT LOSS OF BRITISH STEAMER

London, Oct. 3.—A Lloyd's despatch from Ostend says that the British steamer Dawson (824 tons) from Hull for Antwerp is reported to have been sunk last night by a mine in the North Sea. Nine men are missing; eight were taken to Ostend by a fishing smack.

## GERMANY IS PREPARED TO CARRY WAR TO END

VICE-CHANCELLOR STATES COUNTRY CANNOT BE STARVED OUT

Declares Unemployment Is Steadily Decreasing and That a General Moratorium Will be Warded Off During the Conflict—Has Enough Food to Last Until Next Harvest.

BERLIN, Oct. 2. (By way of The Hague and London) Oct. 3, 1:10 a. m.—Germany's position, economically and financially, is such as will enable her to carry the war to a successful conclusion, in the opinion of Vice Chancellor Clemens Del Brueck. The country cannot be starved out, the vice chancellor says in a long interview today.

The unemployment was steadily decreasing, he said, and measures have been taken to put the finances and the credit of trade and industry on a war footing. These have been so successful that a general moratorium will be warded off during the war, placing Germany in a better position after the war than that of states whose industrial life is affected by a moratorium. He said there was no necessity for a general moratorium, to which resort has been had by all other combatants, as well as by some neutral countries.

"One serious consequence of the mobilization," the vice chancellor said, "was the lack of employment, despite the fact that the call to the colors took from five million to six million able bodied men from the industrial field into the army. The idleness was due to the fact that the curtailing of industries caused local unemployment. The provincial employment agencies then were merged in an imperial employment bureau, with the immediate result that the question of employment was solved by putting the man and job together."

"There is a certain difficulty regarding raw materials. One of the first steps taken when the war began was to form an organization to institute a careful stock-taking and take over necessary materials, the same to be later served out to the industries in need of them. We found the supplies greater than had been expected and certain articles have been obtained in considerable quantities in countries occupied by our armies."

"I do not doubt that neutral countries, in their own interest, will endeavor to create markets for their goods, particularly the United States for her cotton. Her population can be starved out as little as can our industries. Germany produces almost the whole of her own consumption of breadstuffs and meats. Certain deficiencies in fodder supplies we are prepared to counteract by a rational use of our large crops, particularly potatoes."

Herr Del Brueck described the method of converting potatoes into meal that can be used in making bread or fodder and gave credit for the use of potato meal as a constituent of bread to the United States. Germany, he continued, was now abundantly supplied with food that would last until the next harvest. The sugar supply was so ample that next year the fields would be planted with crops in which there was a deficiency.

In conclusion Herr Del Brueck said that the general situation was due largely to Germany's centralized organization, economic as well as political. Where it was necessary to take steps in any branch of industry the trade or commerce he needed only the little group of interested ones with whom to discuss the matter knowing that their decision would be binding upon the entire industry.

"In short," he said, "we watch affairs confidently and placidly. I have been a minister nine years and have a perfect knowledge of the economic and moral powers of my country. I am persuaded that we are in a position to conduct this war, which has been forced upon us, to a successful conclusion, also in an economic sense."

## ANSWERS CHINA'S PROTEST.

Peking, Oct. 3.—Japan's reply to China's protest against the Japanese occupation of the railway line from Tsing-Tau to Tsi-Nan was delivered today.

Japan says in effect that it is planning the complete destruction of the German base at Tsing-Tau and so is justified in taking possession of the railway, which constitutes an inseparable portion of the German leased territory in China.

## CONFERENCE OF SOUTHERN CHIEFS REJECTS CARRANZA'S RESIGNATION

## TRIAL JUDGES AMEND DISSOLUTION DECREE

ALTERS ORDER OF U. S. DISTRICT COURT TO HARVESTER COMPANY

Decision Changes Decree So as not to Apply to Foreign Trade of the Company—To Appeal Case to United States Supreme Court.

ST. PAUL, Oct. 3.—The decree of the United States district court handed down last August, ordering the dissolution of the International Harvester Co., under the Sherman anti-trust law, was amended in a decision given here late today by Judges Sanborn, Hook and Smith, the trial judges, which alters the decree so as not to apply to foreign trade of the company and changes the original plan of dissolution.

After the announcement of the decision, attorneys for the International company gave the court formal notice of intention to appeal to the United States supreme court from the dissolution decision of the court as amended.

The first amendment made by the court orders the words "and with foreign nations" struck out where ever they appear in the decree, but the court distinctly reserves its power over the property and business of the company "so far as lawful and necessary to effect a dissolution of the combination."

The amendment regarding the plan of dissolution was first stipulated between the attorney general of the United States and the attorneys for the defendants. The original decree made it compulsory for the company to lay before the court a plan for the separation of the company's business and assets into at least three distinct and separate corporations. Under the amendment the specific number, three, is eliminated and the plan to be drawn is to provide for division of the company's interests "in such manner and into such number of parts of separate and distinct ownership as may be necessary to restore competitive conditions and bring about a situation in harmony with the law."

The company was given ninety days in which to file such a plan for the consideration of the court.

## WAR IS COSTING FRANCE SEVEN MILLIONS OF DOLLARS A DAY

Minister of Finance Says Outlay for First Sixty Days of the Conflict Was \$420,000,000.

Paris, Oct. 3.—The war is costing France \$7,000,000 a day. Minister of finance Alexandre Ribot announced today that the outlay for the first sixty days of the conflict had been \$420,000,000.

M. Ribot gives an interview to The Temps on the situation in the Bank of France, which has not published regular statements since the war began. He says that on October 1, the bank had \$812,400,000 in cash, which was \$63,800,000 more than it had on the eve of the war.

Discussing the projected reopening of the Paris Bourse, M. Ribot said:

"I think there is an interest in doing so without delay but, it is necessary to take into consideration the exchange in London and New York still remain closed. There is no hurry anywhere to give too great facilities for the negotiations of foreign securities in the fear of seeing money go abroad and if the bourse reopens we would have to take precautions in this direction."

## CLEVELAND SUFFRAGETTES MARCH IN PARADE.

Cleveland, O., Oct. 3.—Seven thousand women dressed in white marched through the business section today in the interest of the suffrage amendment to be voted at the November election. They marched six abreast and bore suffrage banners and ribbons of yellow. Many bands and a delegation of male sympathizers added interest to the procession.

## TO OPEN BANKS BY OCT. 15.

Washington, Oct. 3.—Opening of the Federal reserve banks of New York, Chicago and St. Louis not later than October 15 has been decided upon by the Federal reserve board. The directorates of the New York and St. Louis banks already are complete and the class "C" directors to represent the government in the Chicago bank, probably will be named on Monday, making immediate organization possible.

## RAILROAD OFFICIAL DIES.

St. Paul, Minn., Oct. 3.—G. A. Goodell, general manager of the North Pacific railway east of Paradise, Mont., died at his home here today from heart trouble. Mr. Goodell was 59 years old and had been ill for some time.

## RETURNS FROM EUROPE.

New York, Oct. 3.—Col. Samuel Reber, head of the aviation corps of the U. S. A., returned from abroad today on the steamship St. Louis. Captain Reber, commander of the German army was a passenger. He declined to divulge the nature of his mission.

## Send Committee to National Palace to Ask General to Accept Power

## FOLLOWS HEATED DEBATE

Desultory Fighting Marks Opening of Maytorena's Attack on Hill at Naco

## WASHINGTON IS CONFIDENT

MEXICO CITY, Oct. 3.—Shortly before midnight tonight the delegates to the general conference of southern chiefs rejected by an almost unanimous vote the resignation of Gen. Venustiano Carranza as first chief of the constitutionalists. The resignation was laid before the convention early today and the vote followed a heated debate.

A committee was sent to the national palace to ask Gen. Carranza to accept once more supreme power. The entry of Gen. Carranza into the conference chamber in the early evening for the purpose of offering his resignation was dramatic. After the packed galleries and floors had waited nearly an hour, the first chief entered, accompanied by his staff. All those present rose and applauded.

Gen. Carranza commenced reading the text of his resignation in a low voice, often stopping because overcome by emotion. When he concluded he immediately left the chamber amid applause. As he passed out he was embraced by many generals.

When the delegates once more had seated themselves, Luis Cabrera, in an eloquent address, cautioned the delegates not to accept the resignation unless they were ready to designate a successor.

Cabrera was followed by Gen. Obregon and many others. The debate became so violent that it was necessary for the chief of police to caution the orators against the expression of personalities.

General Eduardo May, General Carranza's acting secretary of war, informed the press that whether the resignation was accepted or not, he, with Gen. Obregon and other delegates, would meet at Aguas Calientes on Oct. 5 with a peace commission named by Gen. Villa.

**Desultory Fighting Marks Combat.**  
Naco, Sonora, Mex., Oct. 3.—Desultory fighting on all sides of the town marked the opening tonight of the attack by Governor Maytorena's Villista forces on Gen. Hill's troops, which have been entrenched here for a week.

Although both sides are using machine guns, Maytorena's troops seem to have some heavier pieces of artillery than the defenders of the town. American troops patrolled the international boundary and turned back wounded men who sought refuge and medical attention in Naco, Arizona.

## Report Withdrawal of Maytorena.

El Paso, Tex., Oct. 3.—Advices to Carranza agents here tonight said that after the preliminary fight to the south of Naco, the Maytorena forces withdrew. It was said that no advantage had been secured against the defenders under General Hill.

## Advices Give Further Assurance.

Washington, Oct. 3.—Advices to the state department today further assured administration officials that a peaceful settlement of Mexico's latest difficulties would result from the Aguas Calientes conference, to convene Oct. 5. Consul General Hanna at Monterey reported: "There appears to be a better understanding between all Mexican officers than before." Consul Silliman, personal representative of President Wilson, telegraphed from Mexico City that the situation was improved. The conference of generals now in session at Mexico City, he said, would adjourn to hold open caucuses with representatives of Gen. Villa at Aguas Calientes, beginning Oct. 5.

The authorities in Mexico City were said to be hopeful that an agreement would be reached between the Carranza-Villa factions at Aguas Calientes, which would assure the re-establishment of friendly relations between the two leaders.

The constitutionalist agency here tonight says Fernando Iglesias Calderon, Gen. Villa's choice for provisional president, would not accept the office unless a convention representing all elements chose him.

## MINISTER FILES PETITION.

Chicago, Oct. 3.—The petition of Jenkin Lloyd Jones as an independent candidate for the state senate was filed tonight after James W. Harvey had been arrested charged with making an effort to steal the pages of signatures.

Harvey called at the Jones' headquarters and said he had been sent by the anti-saloon league for the petition. He was given the signatures when clerks became suspicious and caused his arrest.

Dr. Jones is the pastor of All Souls church and for many years has been a leader in church and civic affairs.

The reports of Mr. Roosevelt's speeches, in which he is declaring day after day that the Republican and Democratic parties are opposed to federal legislation against child labor have called forth a statement from the general secretary of the committee, in which it is set forth that at present child labor legislation is receiving support from leaders in the Republican and Democratic parties, as well as from progressives.

A vigorous protest against an increase in rates for mileage books used by commercial travelers has been filed by the Associated Commercial Travelers of America with the interstate commerce commission. Not only has the association made an initial move by writing the interstate commerce commission, but letters have been addressed to various commercial bodies and leading wholesale and industrial institutions employing traveling men throughout the United States, asking them to write letters of protest for the purpose of waging an active campaign which may be effective in preventing what the association claims is unjust.

## WILL PRAY FOR PEACE.

In accordance with the request of President Wilson, prayers will ascend today from millions of hearts in America that the awful war in Europe may be brought to an end.

A petition with such a mighty force of feeling behind it cannot go long unanswered, it seems. No doubt while the Almighty is giving ear to this petition from the American people the heads of the warring nations cannot but be touched and softened by the very thought that the sorrows and agonies of their peoples are weighing upon the hearts of their brethren on this side of the Atlantic.

"One touch of nature makes the whole world kin," and let us hope that the prayers of today may bring into being the thought and meaning of world kinship.

## REPUBLICAN PARTY HAS STRONG COUNTY TICKET

While all is quiet on the surface in local political circles, it is nevertheless true that the republicans are waging a vigorous campaign. Practically all of them are busy interviewing the voters in a personal way and seeking pledges of support at the coming election.

The Republican party ticket is unusually strong this time and the fitness of the candidates for office gives abundant hopes for party success. From time to time now the Journal will have occasion to remind voters as to who the Republican candidates are and their names are merely mentioned this morning.

For judge—John J. Reeve.  
For clerk—Thomas Hughes.  
For sheriff—Grant Graff.  
For treasurer—George Stice.  
For superintendent of schools—H. A. Withee.

For commissioner—Allinson Thomson.

These are good names and worthy, every one, and merit the support of the voters.

## WELL GIVES GLAT PROMISE.

The well drilling at the Widenham-Daub land is progressing in a very satisfactory way and yesterday at a depth of 59 feet 7 inches the water bearing gravel was struck and the water began to flow in rapidly. Thus far the standpipe has been forced through five feet of gravel and there is nothing to indicate yet what the exact thickness of the stratum is. The other wells vary in depth from 51 to 57 feet and the gravel is also of equally varying depths. The water of the new well is now standing at a depth of 22 feet and everything indicates that it will be one of the best, if not the very best of all the wells thus far put down.

## PURPOSE OF THE MODERN COMMERCIAL ORGANIZATION.

The modern commercial organization has higher functions than those of a mere trade promoter, said a speaker at the recent convention of commercial executives in Cincinnati, attended by Secretary Fritchey of the local chamber of commerce. "The mission and purpose of the modern commercial organization is fundamentally economic and civil in character. All promotional effort in this field falls under two classifications. They may concern themselves with the commercial and industrial advancement of the community, or strive for greater efficiency in local government, but the basic purpose of all effort is for material and social betterment. The time when a commercial organization was recognized solely as a promoter of commerce and trade or of transportation and industry, has gone by."

The Cincinnati meeting was a joint convention of the American Association of Commercial executives and the Central Association of Commercial Secretaries. At Dayton, Mr. Fritchey had opportunity to observe the workings of the "Greater Dayton

Association", an organization of note among commercial bodies. Cooperation is the key-note of municipal affairs in Dayton. The city officials and the commercial body work in harmony and confer frequently. Once each month a mass meeting is held in the "Greater Dayton" assembly hall and affairs of municipal importance are discussed. The whole city has the "live wire" atmosphere and Daytonian methods in things municipal seem worthy of intelligent emulation. It took a flood to shake Dayton into life. Some cities may be able to come from hibernation into the light without medicine so strong.

## THE REPRESENTATIVE MORGAN COUNTY NEEDS.

We want a man to represent us at this critical time who will not shilly-shally; who is no bi-partisan, or any other kind of a partisan; who has brains enough to know what to do and who has conscience enough to do it. Vital questions will come up that touch our city and our highest interests. Candidates are making all sorts of promises and promising big things—anything we want, but what do they say and say what they think. We want the proof that they are promise keepers. Where is the proof? We measure the mental of man by what he can bear, when put to the test.

The man who at a pay of thirteen dollars a month, left home and business behind, and for four years marched under blazing suns, steeped upon the ground, breathed the miasma of the swamps, and amidst shot and shell and sauer thrust kept our flag afloat and bore it in triumph, has proved that he is true as steel in any bitter conflict. The man who headed an anti-saloon parade in our city amid the jeers of the saloonists proved that he will not waver when it comes to voting for our sacred rights.

Capt. John E. Wright is that tried, true man for the hour. Let us honor the man who helped to save our Republic in its extreme peril. What that war between brothers cost the nation, or the individual is fading out of memory. Where a soldier dies there is a historian lost. The history of the war is not in books. It is oral history communicated from man to man, in the struggle that is still going on for better things. This kind of historian of the war for the Union will cease to be. It is a good thing for our country to make a good deal of the old soldier while he lasts. He helps to keep alive our loyalty and keep up our faith in the future of the republic. This hero of many battles is the man for the battle for better homes that is before us.

A. B. Morey.

## Carrying Out the Provisions of Your Will

After a man is gone, his influence lessens. He is not here to assert himself, not even to protest.

The insistence of heirs is often very potent and sometimes contrary to the will's implicit directions.

Then it is that the carrying out of a testator's wishes depends upon the executor.

Upon a responsible trust company no pressure is available.

It is impartial, unaffected by any other considerations than an exact execution of the will.

This is one of the many reasons why a trust company should be named your executor.

## AFRICAN M. E. CONFERENCE NEXT YEAR IN DECATUR

Colored Ministers Make Decision at Noon Saturday After an Hour of Balloting—Will Not Let Churches For Political Meetings.

After a close contest between Decatur and Cairo as the places for the next session of the Illinois African Methodist Episcopal Conference, the decision went at noon Saturday to the former city. The gathering will be convened in September. The afternoon session was taken up with reports on standing of two members who had failed to measure up to requirements and other business matters. The conference voted to receive S. S. Smith on trial and Prof. C. S. Smith was admitted to elder's orders. The Rev. P. C. Cooper of Lincoln, fifty years in the ministry, was placed on the supernumerary list at the request of Mr. Cooper himself. Bishop Lee at the morning session spoke at length on the desecration of church buildings. He opposed especially the holding of festivals, the sale of soft drinks, etc. The use of church buildings for political meetings came up for discussion and the sentiment of the conference seemed to be against such a practice. The ministers adopted resolutions drawn up by S. B. Jones of Peoria, as follows:

Whereas: The churches of our denomination have been dedicated to God, for the purpose of instilling Christian principles into the lives of the people. Be it therefore—Resolved, that we will not let our churches for political meetings which carry no Christian significance nor tend to elevate the people morally.

## LOCAL PICTURES WILL BE SHOWN AT SCOTT'S

Jacksonville People Will Be Seen in The Movies Monday and Tuesday, Both Afternoon and Night.

Manager Scott has purchased the local pictures that were taken by F. C. Maybury and W. M. Mitchell about a week ago. These are snap shot pictures of Jacksonville people and business houses.

Very few of you who have been on the streets have escaped. You may think you have but if you come to Scott's theatre on Monday you are sure to see yourself and about 200 others. There will be 100 pictures shown Monday and 100 new ones will be shown Tuesday. People going to and from church, schools and factories. These pictures are unique, interesting and entertaining, and those attending the show will have the pleasure of seeing themselves as others see them. Also motion pictures. This is positively the latest and most up-to-date idea in the picture world today. In conjunction with our regular show of 6 reels of the best pictures in the world. 5 and 10 cents.

## ANOTHER SHIPMENT OF SUITS JUST RECEIVED AT HERMAN'S.

ATTEMPT TO STOP ROBIN'S SPEECH Candidate "Plays Safe" and Visits Only at Pittsfield.

Quincy, Ill., Oct. 3.—The enemy endeavoring to outmaneuver Raymond Robins, Progressive candidate for the senate, today. It happened at Pittsfield, where a combination of Sullivan Democrats and standpat Republicans apparently had formed a defensive alliance. A street carnival was in progress. Mr. Robins descended from his train and was about to storm the outposts and capture the main body, when various individuals approached him and called a halt.

"You would do well not to speak here," they whispered in impressive tones. A friend then told him the Sullivan men and Republicans were responsible for the warning. But Mr. Robins "played safe" and did not speak. He mingled with the crowd, however, talking with many.

## JACKSONVILLE WINS FIRST GAME

DEFEATS HANNIBAL HIGH BY SCORE OF 25 TO 0.

Mid-summer Weather Ushers in Initial Football Contest on Illinois Field Yesterday.—Killbrew Stars With 80 Yard Run For Touchdown.

The Jacksonville High school eleven ushered in the football season with a great victory Saturday over the Hannibal, Mo. high school team by a score of 25 to 0. It has been many a year, on Illinois field, since spectators witnessed a football game in mid-summer weather, a large number of the spectators, watching the contest in shirt sleeves. The weather was more favorable for baseball.

It was the first game for Jacksonville and the second for Hannibal who had a game a week ago with Canton, the score being 0 to 0. Hannibal has a snappy team, with plenty of grit and determination. Their line showed weak spots throughout the entire contest, although they executed several nice plays and got away in good shape with a number of forward passes. Their gains, however, were not consistent and at critical points of the contest they lacked team work. They have some splendid material, their back field being superior to the rest of the team and with two or three weeks more work will be a good match for any high school team.

The trouble with Hannibal yesterday was that they were playing against a team, which will be heard from before the season is over, despite the fact that the majority of the players are new at the game. Jacksonville's backfield is a powerful working machine. Killbrew featured the contest by an 80 yard run for a touchdown, and the Pyatt brothers, who jumped into the game with no practice, plainly showed what can be expected of them before the season closes. With the exception of two men J. H. S.'s line was entirely new. Coach Buland expressed himself well pleased with the team's first showing and after some of the rough edges are smoothed down, the school will have one of the best teams in its history.

Jacksonville kicked to Hannibal at the opening of the game and secured the oval two minutes afterwards when Hannibal fumbled. With line plunges and end runs by Maddox, Haigh and Killbrew, the ball was carried over by Killbrew for a touch down. J. H. S. did not get to kick goal as Maddox let the ball touch the ground.

In the second quarter after a sea-saw game had taken place for several minutes Killbrew got away for a touch down, with a sensational run of 80 yards. Reynolds kicked goal. In the third quarter Jacksonville succeeded in carrying the ball to within one yard of goal when it was fumbled. Drake of Hannibal recovering it. Fisher kicked out of bounds. A clever forward pass was worked by Jacksonville, J. Pyatt receiving the pass on the goal line and fell over for a touchdown. Reynolds failed to kick goal making the score 19 to 0. There was some hard playing the rest of the quarter, neither side scoring.

In the last quarter Hannibal kicked to Boxell who carried the ball back 20 yards. Consistent gains were made by Haigh, Maddox and Killbrew and the ball was worked down to the two yard line when Maddox went over for the last touchdown, making the score 25 to 0.

Jacksonville used as substitutes Boxell and Thompson and Hannibal, Strube, Schroeder and Scheinman.

The following was the lineup:  
Hannibal Position J. H. S.  
Wilson R. E. E. Pyatt  
Blacketter R. T. Meyer  
McKey R. G. Reynolds  
McCartney C. Strawn  
Jeffries L. G. Herring

## WINCHESTER.

Saturday evening the Red Men had a large initiation followed by a banquet and smoker. At 8:30 o'clock the members of the tribe took part in a parade and immediately thereafter gathered in the park to listen to an address by Mr. Stone. After the work in the wigwam, later in the evening, the Red Men joined in a season of good fellowship at the banquet and smoker.

Mrs. C. W. Ross, Miss Beulah Walk and Miss May George were shopping in the city Saturday from Alsey.

The West End Domestic Science circle gave a supper and bazaar Friday evening in Brown's school house. A considerable sum was realized and the event was in every way successful.

Sol Henaline of Chicago is in Winchester for a visit with David and Albert Hainsfurther.

### GLASS OF SALTS IF YOUR KIDNEYS HURT

Eat Less Meat if You Feel Backache or Have Bladder Trouble.

Meat forms uric acid which excites and overworks the kidneys in their efforts to filter it from the system. Regular eaters of meat must flush the kidneys occasionally. You must relieve them like you relieve your bowels; removing all the acids, waste and poison, else you feel a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment; the channels often get irritated, obliging you to get up two or three times during the night.

To neutralize these irritating acids and flush off the body's urinous waste get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine and bladder disorders disappear. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys and stop bladder irritation. Jad Salts is inexpensive; harmless and makes a delightful effervescent lithia-water drink which millions of men and women take now and then, thus avoiding serious kidney and bladder diseases.—adv.

#### OBITUARY.

The death of Miss Frances McGinnis removes one who was long identified with the educational institutions of Jacksonville, and one who is remembered kindly by our older residents and her old pupils.

We who went to the Third Ward school on East College street when there were only two rooms—the upstairs, which was the goal of the aspiring youngsters of the downstairs room, can still hear the voice of Miss McGinnis as she grounded us in the three R's. Faithfully she did her work and impressed upon us her strength of character, love of knowledge and purity of life. She then taught eighteen years in the School for the Blind and retired to an eastern city to live. But in old age she wished to be again in the midst of those early scenes and efforts, and came back to pass the remainder of life in the old town among the old associations. And in death she did not forget us, but, thoughtful of our charities, returned some of the hard earnings of years gone by to benefit our present institutions, which need support. She remembered her girlhood school, the Woman's College; she remembered the Y. W. C. A., our youth of today; she remembered the aged in the Old People's Home; she remembered that Passavant hospital must care for our sick ones; and she left a bequest of \$150 to each of these. This interest which she kept for us even down to old age, is another sweet ministry added to that of her early life. She, being dead, yet speaketh.

#### AMERICAN PRISON ASSOCIATION.

St. Paul, Minn., Oct. 3.—Prison wardens and heads of numerous other correctional institutions and charitable organizations have arrived here in large numbers to take part in the annual meeting of the American Prison Association. Today was devoted to the registration of the delegates and the transaction of considerable preliminary business. A special conference will be held tomorrow and the regular business of the association will occupy Monday and Tuesday. An attractive program combines with the large and representative attendance to give promise of one of the most successful meetings ever held by the association.

### IF HEADACHY, DIZZY, BILIOUS, "CASCARETS"

Tonight! Clean Your Bowels and Stop Headache, Colds, Sour Stomach.

Get a 10-cent box now. You're bilious! You have a throbbing sensation in your head, a bad taste in your mouth, your eyes burn, your skin is yellow, with dark rings under your eyes; you feel ugly, mean and ill-tempered. Your system is full of bile not properly passed off, and what you need is a cleaning up, inside. Don't continue being a bilious nuisance to yourself and those who love you, and don't resort to harsh physics that irritate and injure. Remember that most disorders of the stomach, liver and bowels are cured by morning with gentle, thorough Cascarets—they work while you sleep. A 10-cent box from your druggist will keep your liver and bowels clean; stomach sweet, and your head clear for months. Children love to take Cascarets because they taste good and never gripe or sicken.

### A WAR FOR PEACE.

(Wall Street Journal.)

The greatest blessing that can befall Germany is defeat and disarmament. For her disarmament would mean the dismantling of all the fortifications on both sides of her frontiers and also a general European disarmament.

Germany would then be unhampered by military strain and taxes and free to re-enter more fully the race, in mining, manufacturing and shipping.

Her standard of living and wages would gradually rise and she would be for all the world not only a great producing, but one of the great consuming nations. On the other hand her military success over all Europe would burden her with the maintenance of a war machine and a war diplomacy which might in the end be her total destruction.

Although official statements from Washington and elsewhere are that it is too early to talk peace, such declarations are not supported by the facts. From all sides it is conceded that this is a war for peace. Germany says she is fighting for the peace of Europe and that she has had to maintain her war machines and taxation to that end. England, France and Russia likewise, each and all, declare they are fighting for the peace of Europe and the world, and that this desirable end can only be attained by the destruction of German militarism.

Therefore, what is there to talk about save peace—how best to attain worldwide and lasting peace, and in what terms of settlement is this peace to be expressed?

If the thought of the world is to avoid anything in this matter it must be clarified by an intelligent discussion of the facts and factors bearing upon the case.

#### No Disarmament of Germany.

Nobody really wishes the disarmament of the German empire, and yet there are foolish proposals that Germany can only be held down as a war power by disarmament, as well as the destruction of the Prussian military party and the house of Hohenzollern. Disarmament would mean the crippling of Germany commercially, and thereby a damage to the whole world. It might mean a return to old systems of coinage and finance, broken transportation and unsettled systems of tariffs and taxes—a loss to the whole world of all it has gained through German unity and German commercial progress.

There are those who believe Austria should be carved up, the northern part made a province of Germany; Hungary re-established and Poland put together again as an autonomy, while some of the Slav parts of Austria go to make a greater Serbia, with outlet to the Adriatic. But how far have Americans proper knowledge to participate in discussion in any such settlements?

Take the case of Alsace-Lorraine, that looks so simple. The bitterness over Alsace-Lorraine does not come from the contending nations either side of it. For centuries Alsace-Lorraine have been alternately German and French and for the most part German. If it was a crime to make it German forty years ago, would it not be a crime today to attempt to make it French, after it has become largely German? Germany has improved the transportation, the highways, the industries and the wages and economic conditions in Alsace-Lorraine. Ask almost any man from Alsace-Lorraine how those provinces would vote if they could have free choice and he will tell you they would vote to be independent like Switzerland; but if this were impossible, they would prefer German rule and administration.

How is America to enter into any such discussion as respects details of settlement?

**American Principles.** Some people believe that if the Allies are successful, Belgium should not only be paid full damage, but a double indemnity, and France should get back her billion dollar indemnity of 1871, with compound interest. This is just where American principles of fair play and rule for the people, by the people, can properly come in with a most proper discussion of terms of peace.

These American principles should be continually discussed and continually put before the world. Perhaps they may be primarily formulated as follows:

First—The government belongs to the people, and not the people to the government. This primarily affects the disposition of Alsace-Lorraine, but

Second—Larger units in nationality facilitate the exchanges and intercourse of the people with the least barriers and therefore, favor the highest individual development; and individual freedom and development is the highest thing to be promoted by both society and government.

Third—Transfer of moneys, lands and peoples from one nation to another as the result of force in war is in general an evil engendering future wars and reprisals.

It would be universally agreed that Belgium is justly entitled to full indemnity, but damages by punishment upon Germany should not be sought. An over-indemnification, either by money or lands, engenders later friction, or later arguments frictions which may arise from other causes.

The Japanese Example.

When Japan made peace with Russia without a kopek for indemnity, she showed herself entitled to rank with every Christian nation. She had proven her patriotism and that she was not a nation designed for loot or piracy.

France is not in the position of Belgium. France has not been guilty of war preparation aimed to take from Germany as Germany has been guilty of war preparation aimed to take from England.

France is wise enough and Eng-

### ANNOUNCING

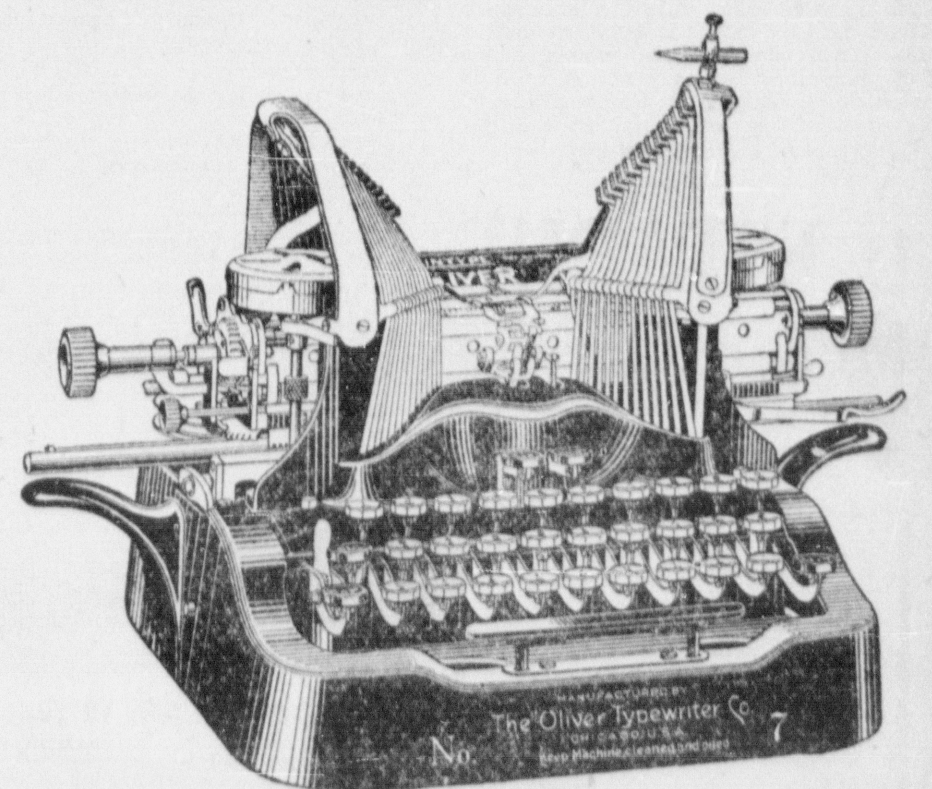

## The New Typewriter...OLIVER No. 7

WE ANNOUNCE AN AMAZING MODEL—THE OLIVER No. 7—a typewriter of superexcellence, with automatic devices and refinements that mark the zenith of typewriter progress. A marvel of beauty, speed and easy action. Typewriting efficiency raised to the nth power.

The OLIVER No. 7 embodies all previous Oliver innovations and new self-acting devices never before seen on any typewriter. A leap in advance which places The Oliver ten years ahead of its time. So smooth in action, so light to the touch, so easy to run, that experts are amazed. A model that means to the typist delightful ease of operation.

A model that means a higher standard of typewriting, longer and better service.

The No. 7 is now on exhibit and sale at all Oliver Branches and Agencies throughout the United States.

### A SURE WAY TO END DANDRUFF

Stop Falling Hair and Itching Scalp—At Once

There is one sure way that has never failed to remove dandruff at once, and that is to dissolve it, then you destroy it entirely. To do this, just get about four ounces of plain, common liquid arvon from any drug store (this is all you will need), apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all of your dandruff will be gone, and three or four more applications will completely dissolve, and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find all itching and digging of the scalp will stop instantly and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

If you value your hair, you should get rid of dandruff at once, for nothing destroys the hair so quickly. It not only starves the hair and makes it fall out, but it makes it stringy, straggly, dull, dry, brittle and lifeless, and everybody notices it.

The new model has more improvements, refinements and new uses than we can even enumerate here.

The "Cushioned keyboard" with "anchor keys" and the new automatic features mean less work for the hands, less strain on the eyes, less manual and mental effort.

With all of these masterly mechanical improvements we have made the machine more beautiful and symmetrical. From every standpoint The Oliver No. 7 attains superlative excellence.

Nothing you could wish for has been omitted. The new devices, refinements, improvements and conveniences found on the No. 7 represent an enormous outlay and vastly increase its value—the price has not been advanced one penny. We shall

even continue in force our popular 17-Cents-a-Day purchase plan, the same as one previous Oliver model.

The OLIVER No. 7 is equipped with famous Printype, if desired, without extra charge.

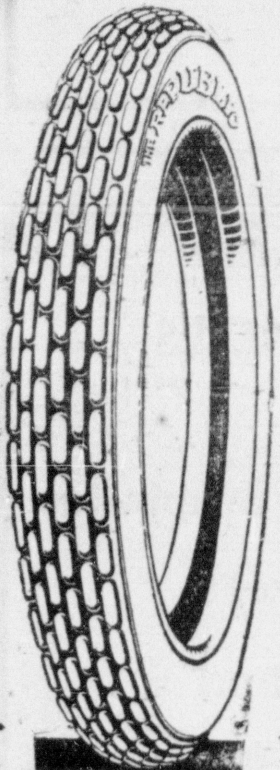

You owe it to yourself to see the new machine before you buy any typewriter at any price. Note its beauty, speed and easy action, its wonderful automatic devices. Try it on any work that is ever done on typewriters. Try it on many kinds of work that no other typewriter will do.

I is a significant fact that the typewriter that introduced such epoch-making innovations as visible writing, visible reading, Printype, etc., should be the first to introduce automatic methods of operation.

### Fall Rain

(By Walt Mason.)

The torrent pours down from the sky, and moistens the earth, hard and dry, and the farmer cavitorts in his barnyard and snorts "Why didn't it come in July?" Ah, then we were praying for rain, for baked was the meadow and plain, and the corn and the oats lost their several goats, the husbandman suffered a pain. Then Pluvius sent not a drop, to rescue the perishing crop; but now, when too late, it comes by the crate, and falls on the corn field kerflop. And that is the species of thanks that Pluvius gets from the cranks, when the faucet he wields and refreshes the fields with the moisture he keeps in his tanks. The pastures are glowing and fresh, the cattle are putting on flesh, but the farmer is sore and he raises his roar and sorrows his spirit enmesh. The soil is in shape for the wheat; the outlook is cheerful and sweet, but the husbandman weeps as he stables his sheep and kicks up a fuss and repeat. Oh, why should we grumble and whine and shed sundry fountains of brine, over things that are dead? Let us all look ahead, for the weather is sure to be fine!

GIANTS DIVIDE DOUBLE  
HEADER WITH BOSTONNEW CHAMPIONS TAKE FIRST  
GAME 4 TO 1.

Second Game Is Brief—Giants Get  
Only One Hit, But Crutcher Passes  
Four Men in Fourth and Forces  
in Only Run.

New York, Oct. 3.—New York di-  
vided the last double-header, as well  
as the season's series with Boston  
when it won the second game today  
by 1 to 0, after the champions took  
the first game by 4 to 1. Boston  
made fifteen hits in the first game  
and bunched their runs in the fourth  
and ninth innings and less was all  
effective in the pinches.

The second game was a brief af-  
fair, as Marquard made the only  
New York hit, but Crutcher forced  
in the only run of the game in the  
fourth inning when he passed four  
men. Marquard returned to form  
and shut out the champions with  
five scattered hits. Scores:

### ILLINOIS COLLEGE NOTES.

Rev. R. O. Post of the Congregational church will speak to the students at the Chapel exercises Tuesday morning.

A greater interest than ever is being taken in tennis at the College. A faculty tennis tournament is now under way, and the students recently appointed a committee to arrange the details of a student tournament. The students committee consists of Earl Harmon, and Francis Rantz, with Professor Ames as Faculty advisor. The winners of the student and Faculty tournament will probably play a match.

At a recent meeting of the Springfield Presbytery, President Rammelkamp was elected a commissioner to Synod, Synod will convene on October 20th at Bloomington.

The Y. M. C. A. held its annual reception for new students in the Phi Alpha Hall on Tuesday evening. The meeting was a very successful one, and it is to be regretted that more new students were not present. It is said that some of the boys were kept away by fear of penalties for infringement of rules relating to freshmen. Ray Bracewell, president of the Y. M. C. A., presided and spoke of the interests of that organization. Among the other speakers were Coach Harmon, Professor Whisler, Captain Alford, Professor Tanner and President Rammelkamp.

Professor P. F. Whisler has a Bible class for college students at the Christian church. The college class at the Grace M. E. church will continue under the leadership of Mr. A. T. Capps '85. President Rammelkamp is in receipt of a letter from the novelist Gilbert Parker, explaining the position of Great Britain in the present European war. A similar letter has evidently been written to other colleges and University Presidents, and is part of an effort Great Britain is making to present her case to the American people. With the letter came various official documents published by the English government.

The honorary members of the Gamma Delta tendered reception to the College girls at the home of Mrs. Andrew Russel on Mound avenue on Tuesday evening.

E. C. Tanner, '98 has been elected chairman of the Republican Central Committee of New York State.

**WEDDING ANNIVERSARY.**  
 Mr. and Mrs. C. B. Graft and Mr. and Mrs. G. G. Graft are spending the day at the rural home of Mr. and Mrs. L. O. Butler on the W. C. Owens homestead east of Prentice. The occasion is the 15th wedding anniversary of Mr. and Mrs. Butler. The dinner will be in charge of Mrs. Burl Brooks, mother of Mr. Butler, assisted by Mrs. Rinda Harris.

### ILLINOIS WOMAN'S COLLEGE NOTES.

President Harker is in the East on business for the college. He will be out of the city for several days, returning in ample time for Founders' Day.

Among other attractions which will be offered in the Artists' course this year, is an exhibit of contemporary American painters. This exhibit is assembled by the American Federation of Artists from the winter exhibitions of the American Academy of Design of New York City. The exhibit will be held for approximately two weeks, and will be under the charge of Miss Knott, head of the Art Department. This will be one of the best art attractions ever brought to Jacksonville, and will doubtless appeal to all interested in such work.

The College of Music orchestra will meet for first rehearsal Thursday evening in Music Hall. The orchestra will be under the leadership of Director H. W. Stearns.

Twenty-nine members of the Junior and Senior classes went to Lake Matanzas to spend the week end. They will occupy the Oak Lodge Cottage while there. This has come to be an annual custom and is greatly enjoyed by the upper classmen. Founders' Day will be fittingly observed Thursday, October 15th. Each year it is the idea to call special attention to the great work done by various staunch friends of the College. Hon. Richard Yates will be the principal speaker.

**MUSIC AT CHRISTIAN CHURCH.**  
 Patriotic and musical services will be held this evening at Central Christian church. The address will be "The Prince of Peace," by Rev. Myron L. Pontius. The chorus choir will be assisted by a ladies sextet and Mr. Albert Strasser, baritone in the rendition of their anthem, Miss Irene Spears, soprano; Mr. Dean Cochran, violinist and Miss Alice Mathis, organist. The music is under the direction of Mr. J. Philip Read.

## To Cure Catarrh Purify the Blood

Reason it Out, Where Does it Start the Mucus From?

Innumerable catarrh sufferers have cured themselves by purifying their blood with S. S. S. Catarrh often invades the entire system before it chokes the nasal passages. It becomes so chronic and extensive that the stomach, liver, kidneys, bronchial tubes and most of the glands are involved without such serious conditions being realized. Catarrh may be the result of some serious blood trouble of former years, and this is only one of the many peculiar effects of impure blood. Now S. S. S. in its influence upon the mucous surfaces, causes these catarrhal secretions to be changed or converted into a substance easily, quickly, and naturally expelled from the body. It so changes this mucus that it is not the rosy, clogging stuff that plugs the nose, chokes the throat, causes severe bowel trouble, upsets the stomach and contaminates the food just entering the blood. It is often difficult to convince catarrh sufferers that chronic cough, chest pains, ringing, cold breath and other symptoms are only the best evidence of deep seated trouble. Get a bottle of S. S. S. today and try it. You will get good results, real benefit and soon be aware of a gradual clearing up and a check to the progress and dangers of catarrh. Avoid substitutes. S. S. S. is prepared only by The Swift Specific Co., 61 Swift Bldg., Atlanta, Ga. They conduct a medical department for free advice that is worth while consulting.

## COLORED RACE HAS MADE MARVELOUS ADVANCES

Rev. S. B. Jones of A. M. E. Conference Gives Summary of His Peoples' Achievements—Record is One Worthy of Recommendation.

At a recent session of the A. M. E. conference Rev. S. B. Jones, pastor of Ward chapel, in Peoria made an address of exceptional merit. In it he told in very forceful and eloquent way something of the marvelous advances made with passing years by the colored people of this country. The address is reprinted herewith.

Slavery and liberty, good and evil, were born into this United States almost at the same time.

In 1619 a ship supposed to be Dutch touched at Jamestown, Va., and landed nineteen negro slaves, the first so far as we know, that ever set foot on the soil of North America.

In 1620 the barque Mayflower landed at Plymouth Rock a handful of pious, honest, intelligent men. This handful of adventurers were the founders of the illustrious nation which bears the name United States of America.

Nearly three centuries have rolled by since the coming of these two vessels, but the influence of the two distinct principles emanating from them still endures, and in many respects divides the country.

From the decks of the Mayflower flowed one of the freest and most flourishing races this world has ever seen, and today it numbers over 70,000,000. The sad passengers of the negro vessel have had about 10,000,000 successors. But, honored Sir, notice the contrast of their pilgrimage in the nation's growth.

No lash ever lacerated the Caucasian's back on the soil of North America; no shackles ever bound their hands and feet; no ruthless hands ever snatched the innocent babe from the breast of the Caucasian mother, and, under the sound of the unchristian voice of the auctioneer sold her away from it forever.

Slavery, as we all know, reared a wall around the negro's moral, social and intellectual powers mightier than the wall around Jericho, and made it firm by the jaws of the land.

Honored Sir, these are sad recollections, but your cordial welcome on this significant occasion brings them vividly to my memory, while marching through the wilderness of American civilization.

But we are told by Faber, the poet, that,

"Right is right, since God is God.  
And right the day must win;  
To doubt would be disloyalty,  
To falter would be sin."

Therefore, for every crisis in the history of this nation, God has ever had the man of the hour.

A little over half a century ago, in a dingy law office in the central part of this state, there was a tall, gaunt man, who triumphantly met Stephen Douglas in debate.

He was not a product of the schools, neither was he experienced in legislation, but he was waiting to hear whatever summons came to him.

It finally came—a call to the presidency of the United States. Seizing the helm of this all but wrecked ship of state, he safely piloted it over the rough, turbulent national sea into the harbor of peace.

His election led to the bloodiest and the most terrific internal struggle in the annals of history.

It was the greatest crisis of the nineteenth century, raised up by God for a great occasion; no man in all history has had so many tears shed for him as fell from the eyes of the American people when great and good Abraham Lincoln met his tragic death.

'61 and '64 will never be forgotten; dark clouds may cast their shadows across the path of my race; mountains of difficulties may impede its progress, but I assure you, Sir, that the words of Owen Meredith,

"No star ever rose and set  
Without influence from somewhere,"

will ever keep fresh in the memory of the negro the patriotic, liberty-loving men who felt their way through the smoke of battle, who stepped over the wounded and dying and waded through rivers of blood, that he might have the right to eat the fruit from the tree of national life.

Therefore, after listening to your cordial words of welcome, I want to assure you that although we have had only fifty years of freedom, against nearly three centuries of servitude, we have not been untrue to the confidence imposed by immortal Lincoln; neither are we unworthy of your manifest kindness tonight.

But by virtue of our pluck and not by luck; by virtue of our inherent worth; by virtue of the lofty ideals that have guided us; by virtue of the noble ambitions that have actuated us, assisted by Divine Providence, we have made our way to the hearts of right thinking people the world over.

Honored Sir, I will admit that individual failures, to properly appreciate the blessings of freedom, may be recorded against us here and there, but reliable statistics will prove that the race on the whole has made itself felt as a factor in the honor and integrity of this government.

It is unfortunate, indeed, that some people would deprive us of human worth and the common civilities of life because of color. They seem to forget that color is no badge of nobility or moral depravity, for there is no definite proof of what the original complexion of our progenitors was.

Furthermore, history teaches that the pathway of human life, of all races and nations, regardless of color, has been darkened by deeds of crime.

Permit me to say that those who argue inequality of the two races in

the higher elements of character, overlook the fact that the superiority of one race over another, is only the result of improved opportunity in becoming intelligent in the progress of civilization.

Therefore, in justice to the negro race it should not be judged by what it once was, but what it is today and by what it has achieved since entering upon the imperfect conditions of civil equality.

I accept your cordial welcome, extended to the bishop and the Illinois conference, in behalf of those negroes who have cut down the illiteracy of the race from 90 per cent in 1860 to 35.5 per cent in 1910, as reported by the last census.

I accept it in behalf of the 2,000,000 negro children in the public schools of our land.

I accept in behalf of the 25,000 negro teachers who are training the youth of the race.

I accept it in behalf of the 5,000 young men and women of our race who have graduated with honor from the leading institutions of intellectual culture in this country.

I accept it in behalf of that negro boy who won the famous Rhodes scholarship to Oxford College, England.

I accept it in behalf of the 31,393 negro churches, with an aggregate membership of 3,207,305 and in behalf of the 24,380 Sunday schools, with 1,444,570 scholars.

I accept it in behalf of the 500,000 homes and 220,000 farms owned by the race in this country.

I accept it in behalf of the 20,000,000 acres of land, 20,000 stores, 72 banks owned by the race, and the 75,000 professional negroes in this country.

I accept it in behalf of 187,975 sable sons who responded to the call, "Save the Union," and in this mighty effort wrote their names in the history of this country in letters of blood at Honey Hill, Poison Springs, Petersburg, Fort Wagner and Nashville.

I accept this welcome to our conference tonight in behalf of the 3,847 negro soldiers who gave their lives for freedom and the salvation of the Union, with the hope that their descendants might have an equal chance in the race of life.

I acknowledge the debt of gratitude the negro owes to the noble men and women of your race, but I cannot forget the leadership within the race.

In memory tonight I can hear the mighty Douglas, whose matchless oratory swept the nation's sin before him, like a wave of the ocean and painted the crime of American slavery on the sky above, that all the world might read.

In memory we can see lamented Bishops Payne, Shorter, Arnett and Grant, who have passed to their final reward, but in the light today we have the veteran Bishops Turner and our beloved Lee, going before the race like a pillar of cloud by day and fire by night, leading it up to heights never before attained, and to the accomplishment of deeds never before achieved.

Allow me to call attention to the negro expositions in Pennsylvania, New Jersey, New York and our own, to be held in 1915, for which we are grateful to Governor Dunne and the good people of Illinois.

If, as many are inclined to believe, the race question is industrial, these expositions will undoubtedly go far toward settling it and prove to the world that the race has not been untrue to the provisions of the 13th, 14th and 15th amendments to our constitution, nor ignorant of the meaning of citizenship.

Through these expositions the manhood, the industry, the thrift, the intelligence, the business ability and artistic skill of the race will find convincing and effective expression.

I am pleased to say that these expositions have no political significance whatever, but the intent and purpose is to destroy as far as possible bitter race feeling, and thus make the nation stronger and grander by enthroning in the hearts of all the people the Divine teaching, "Fatherhood of God and brotherhood of man."

What we need in this country is a peaceful racial relationship that will make for the good of all the people.

This happy condition, the dream of the best minds in both races, can only be brought about by both races acting their best part to this great end.

But there is no need of crying, "Peace! Peace!" when Tillman, Vardaman, John Temple Graves and others are continually intensifying race prejudice and race hatred.

Again I thank you for the cordial welcome extended to the bishop and conference. In closing I will make reference to this historical incident: Robert Bruce, king of Scotland, when dying called to his bedside the Earl of Douglas, his best friend, and made this strange request: "When I am dead, take out my heart and bury it in Jerusalem."

In obedience to his dying request a skilled surgeon removed his heart and it was enclosed in a beautiful golden casket.

Douglas, with a band of faithful knights, started with the sacred casket for the Holy Land.

On the way they were attacked by a band of Moors; the battle was fierce; when it seemed that the brave knights were about to be annihilated Douglas seized the sacred casket and hurled it into the midst of the enemy with the cry, "Lead on, heart of Bruce, we follow thee!"

The effect was electrical, the knights rallied, cut their way through the band of Moors, and proceeded on their journey.

Figuratively speaking, let the negro race procure the heart of him who sleeps beneath a marble covering at Oak Hill, Springfield.

And enclosing it in the casket of his ambition, determination and patriotism, hurl it into the midst of Tillman, Vardaman and the wild horde that follows them, with the cry, "Lead on, heart of Lincoln, we follow thee; we follow thee!"

Mrs. John Alexander of Arcadia was a shopper in the city Saturday.

## GIANT'S PENNANT CHANCES FADED AWAY

Various Reasons Assigned for Collapse of Long Time Champions—Season Pitching Record Not Equal of 1913.

New York, Oct. 3.—The once mighty Giants have faded. The nerve-racking pace of a tight pennant race, in which they hoped to annex their fourth straight National league championship has had its effect and the old Giant machine has gone to pieces under the strain.

A variety of reasons are advanced for the collapse of the McGraw henchmen. The loss of Herzog and McCormick, who were members of last year's team, the falling down in batting among the regulars and the failure of Marquard and Demaree to pitch up to their 1913 form, all seem to contribute to the slump of the old champions.

A comparison of the pitching records of 1913 and 1914 shows that Mathewson and Tesreau are the only New York flingers who have been able to duplicate this season their performances of last year. Mathewson has not quite equaled his 1913 mark, but Tesreau has surpassed his record of last year.

In contrast to the good work of "Matty" and "Big Jeff," the pitching of Demaree and Marquard has been a bitter disappointment to Gotham fans this season, since great reliance had been placed on this pair of heavies to add to the list of victories.

Last season Demaree and Marquard pitched wonderful ball, the former winning 23 out of 29 games and the last named 23 out of 32 games pitched. The records of the pair for this season show they have lost double the number of games they have won.

This reversal in pitching form on the part of the two stars was enough in itself to put the skids under the Giants. But in addition, McGraw has had to contend with weak hitting on the part of his regulars. While the Giants surpass the Braves in team batting, the individual batting marks of the New Yorkers, with the exception of Burns, Grant and Bescher, are below the percentages turned in last season.

"Chief" Mayers, who hit for .312 in 1913, has hit around the .270 mark this year. Fletcher also has hit for about .270, with a last year's average of .297. Snodgrass dropped from .286 in 1913 to .259 in 1914. The stick work of Captain Larry Doyle also has suffered a slump. Doyle's batting average of .280 last year has shrunk to .266. Murray and Merkle are two more of the Giant regulars who have failed in effective batting. The former's mark of .267 last season has dropped to .212, and Merkle's average has fallen from .261 to .249.

Of the three Giants who have bettered their batting averages this year the greatest climb has been made by

Grant, who has advanced from .211 in 1913 to .307 this year. Burns has boosted his figure from .260 to .302 and Bescher has gone up from .258 to .277.

Another apparent weakness in the Giants' game is in the pinch hitting department. Harry McCormick, who managed the Chattanooga team this season, was the pinch hitter for the Giants last year and closed the season with a batting average of .275. This season Mike Donlin, in his day one of the greatest batters in the game, was engaged to fill McCormick's place. But Mike has failed to live up to his reputation as a pinch hitter, his batting average being less than .200.

The foregoing are the facts and figures in regard to the slump of the Giants. But in some quarters other causes are advanced for the downfall of the old champions. Some say that the winning of three pennants caused the team to become "chesty." Believing they had a cinch on the flag this year, they took things easy and when the time came for them to show the punch or lose—they lost.

New York fans will not be surprised if several of the present regulars are either benched or released when the 1915 season opens next April. Manager McGraw has a dozen promising recruits awaiting the chance to get into the regular line-up, and it is more than likely that he will give some of them an opportunity to show what they can do. At present the old Giant machine looks to be on the rocks and it evidently is up to McGraw to rebuild the outfit with some of the material now doing bench duty.

## NEW AMBASSADOR FROM ITALY.

Washington, Oct. 3.—The circle of foreign diplomats in Washington has just received a new and interesting addition in the person of Count Macchi di Cellere, who has arrived here to take up his duties as Italian ambassador to the United States.

The new ambassador comes from a very old Roman family, which has given many cardinals to the church. He is a great favorite at court, where Countess Cellere is among the ladies seen at all functions.

About a year ago Count Cellere was asked to accept a candidacy for parliament, which he declined upon being appointed to the Washington post. He is a knight of the order of the Crown of Italy, and is a knight commander of the St. Maurizio and St. Lazarro, one of the most distinguished and oldest orders in Europe, founded in the sixteenth century by the house of Savoy.

Count Cellere is a man of brilliant diplomatic achievements and more than once he has been spoken of in Rome as a future minister of foreign affairs. His home in the Italian capital is one of the most beautiful residences in that city. The family's old palace, however, is in Piazza Capranica and is familiar to Americans, as it constitutes one of the best specimens of the early renaissance.

# WORLD'S MARKET NEWS

## WHEAT SCORES A RAPID ADVANCE

Rise Results Mainly from Bel-  
ief that Demand from Europe  
Is Becoming More Acute

## CORN AND OATS MAKE GOOD GAINS

CHICAGO, Oct. 3.—Wheat today  
scored a rapid advance, mainly the  
result of the belief that regardless  
of conditions at Liverpool, the de-  
mand from Europe as a whole was  
becoming more acute. The market  
closed strong, 2 3/4c above last  
night. Corn gained 1 1/2c to 1 3/4c  
net and oats 1/2c. Provisions the  
outcome varied from 10c decline  
to a rise of 42c.

Commission house buying of wheat  
began right at the opening and met  
no serious obstacle until the market  
reached the top prices of the day.  
Week-end realizing by miscellaneous  
holders resulted then in a small set-  
back, from which, however, there  
was a decided rebound as the ses-  
sion came to an end. A statement  
purporting to exhibit a shortage of  
394,000 bushels in supplies out-  
side of the United States had been  
to do with stirring up sentiment in  
favor of the bulls.

Prospects seemed to be that do-  
mestic receipts would fall off next  
week both from the spring and win-  
ter crop belts. This fact was largely  
responsible for traders generally ig-  
noring forecasts of a liberal increase  
Monday in the weekly total of the  
United States visible supply.

Shorts were active buyers of corn  
owing to the outlook for unsettled  
weather and of scanty deliveries from  
first hands. The bears were also  
hampered by the strength of wheat.  
Abated export call sent oats up with  
other grain. The December option,  
though, was under a drag, owing to  
heavy sales by one of the principal  
elevator concerns.

All the active deliveries in the  
provision market had a good upturn.  
Higher prices for hogs and cereals  
brought about the bulge.

# SMITH-LEVER ACT AN EDUCATIONAL MEASURE

Government Funds Provided for Grants to Individuals.

Washington, D. C., Oct. 3.—Many letters are being received by the U. S. Department of Agriculture which indicate that farm women in various sections of the country have come to believe that the government is about to assist them with grants of money to individuals. This unfortunate mistake, it is feared, will be the cause of considerable disappointment, appears to have arisen through a misunderstanding of the Smith-Lever Act recently passed by Congress. Under this act funds contributed both by the Federal and State governments are made available for practical demonstration work in agriculture and home economics. Experts from the agricultural colleges and county agents, both men and women, are to show farmers and farm women the value of modern methods in agriculture and housekeeping, and demonstrate the use of labor-saving devices. The purposes of the act are thus entirely educational; and there are no provisions whatever for direct financial assistance.

This demonstration work which the Smith-Lever Act is designed to promote has already met with considerable success in the states where it has been started, but the additional funds now available will greatly increase its efficiency. To avail themselves of the full of its possibilities the department officials recommend that farm women form local clubs and then communicate with the county agent or the state agricultural college. In this way it will often be possible to secure a visit from the county agent or from the home economics expert.

## HANS SCHMIDT IS SEEKING NEW TRIAL

Attorneys for Convicted Priest Declare Woman He Is Charged With Murdering Died After Operation.

Arguments will be heard in the appellate court here Monday on the application for a new trial in the case of Hans Schmidt, the convicted priest, who for the past eight months has been in the death house at Sing Sing prison awaiting electrocution for the murder of Anna Amuller, whose body he dismembered and cast into the Hudson.

The murder of the Amuller girl was one of the most horrible in the crime history of the metropolis. Schmidt was a priest attached to St. Joseph's church. Formerly he had been attached to another church where the girl was employed as a waitress. An attachment sprang up between the two and led to the dismissal of the girl from her employment and the transfer of the priest to St. Joseph's church. In the meantime it is alleged that the priest had represented to the girl that he had married her through a ceremony performed by himself.

In the latter part of August, because of the girl's condition, the priest took her to a flat on the west side that he had fitted up. He confessed that a few days later he went to the house about midnight, and while she slept, cut her throat and then dismembered the body, cutting it into nine parts. He made packages of the various portions of the body and threw them one by one into the Hudson river, as he made successive trips across the Fort Lee ferry. The finding of the torso as it was washed up on the Jersey shore, started the police investigation and finally led to the arrest of Schmidt as the murderer. The priest was tried in the early part of last February and largely on the strength of his own confession he was convicted of murder in the first degree.

In an affidavit filed with the district attorney when application was made for the new trial, Schmidt's counsel asserted that the girl was not murdered, but died after an operation, and that Schmidt cut up the body to prevent a scandal and to protect the surgeon who performed the operation.

## CIRCUIT COURT SUITS FILED.

Several suits were filed in the office of E. D. Pyatt, circuit clerk, Saturday, for hearing at the November term of the Morgan county circuit court. A. E. Prince and E. P. Kirby, as trustees, have brought a suit against George W. Cooper et al. to foreclose a mortgage.

The Crawford Lumber company has brought a suit against Charles Patton to foreclose upon a mechanic's lien. Another chapter in the controversy between L. F. O'Donnell and T. E. Tobin was recorded when Mr. O'Donnell brought suit against Tobin for \$1,000. Nothing but the praecipe was filed but the action is styled trespass on the case on promises.

## GIRLS! GIRLS! TRY IT. BEAUTIFY YOUR HAIR.

Make It Thick, Glossy, Wavy, Luxuriant and Remove All Dandruff.

Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and beautiful as a young girl's after a "Dandierine hair cleanse." Just try this—moisten a cloth with a little Dandierine and draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt and excessive oil and in just a few moments you have doubled the beauty of your hair.

Besides beautifying the hair at once, Dandierine dissolves every particle of dandruff; cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair.

But what will please you most will be after a few weeks' use when you will actually see new hair—fine and downy at first—yes—but really new hair growing all over the scalp. If you care for pretty, soft hair and lots of it surely get a 25 cent bottle of Knowlton's Dandierine from any druggist or toilet counter and just try it.

## RECALLS FORMER PETITIONS FOR PRAYERS FOR PEACE

Seven Proclamations Were Made by Presidents Between 1798 and 1881—Adams Was First President to Proclaim Prayer Day.

Washington, Oct. 3.—With all the nation kneeling in prayer tomorrow for the end of the war in Europe, the epochs in American history were recalled when the president had proclaimed a day of general supplication for Divine intervention to preserve or restore peace. Between 1798 and 1881 seven such proclamations were made.

1798—President John Adams named May 9 as a national day of prayer, because France threatened to make war upon the United States.

1815—President James Madison proclaimed Jan. 12 as a day of prayer when trouble was brewing between the American republic and Algiers.

1861—President Abraham Lincoln designated the last Thursday in September for national prayer for the restoration of peace between the North and South.

1863—President Abraham Lincoln called for a second day of prayer—April 30—recommending that the people keep the day "in all humility and with all religious solemnity to the end that the united prayer of the nation may ascend to the throne of grace and bring down bountiful blessings upon our own country."

1864—For the third time during the war between the states a general day of prayer was proclaimed. That was August 1, 1864. Lincoln wrote: "In sincerity and truth let us rest humbly in the hope, authorized by the Divine teachings, that the united cry of the nation will be heard on high and answered with blessings no less than the pardon of our national sins and the restoration of our divided and suffering country to its former happy condition of unity and peace."

1865—President Johnson proclaimed June 1 a day of prayer in commemoration of President Garfield, who died on April 15, the victim of Booth's bullet.

1881—President Arthur designated Sept. 26 for general prayer to mark the burial of President Garfield, who had died Sept. 19 from an assassin's attack.

President Wilson's call for a day of supplication was issued Sept. 8. It was the first time in American history that the people had been urged to pray for the restoration of peace in foreign lands. He requested that "all God fearing persons repair to their places of worship, there to unite their petitions to Almighty God that, overruling the counsel of men, setting straight the things they cannot govern or alter, taking pity on the nations now in the throes of conflict, in His mercy and goodness showing a way where men can see none, He vouchsafe His children healing peace again, and restore once more that concord among men and nations, without which there can be neither happiness nor true friendship nor any wholesome fruit of toil or thought in the world."

While Adams was the first president to proclaim prayer days, yet the people of the New England colonies initiated periods of general prayer early in their history. As far back as 1621 Governor Bradford called upon the people to give thanks for bounteous crops. That was in reality the first Thanksgiving day in the western hemisphere. A second day of prayer was called in the colonies when drought threatened the crops. While the people were gathered in their churches, rain began to fall in plenty. The crops were saved.

## CONSERVATORY NOTES.

The Conservatory orchestra, under Mr. Kitch, held its first rehearsal on Wednesday evening, Sept. 30. Work was begun on the overture to "Iphigenie en Aulide," by Gluck. The Illinois College Chorus will begin rehearsing next Monday evening, Oct. 5th, on Elgar's "The Black Knight." Members of the Chorus are requested to be prompt, at seven o'clock.

Rebecca Scheibel has taken the position of solo soprano at the Westminster Presbyterian church. Mrs. Mary Frazer is acting as organist at the Christian Science church.

Helen Sorrells has been appointed director of music of the Adelphi Society, of the High school, and Grace Hoffman has the same position in the Forum society, also of the high school.

Dean Cochran will play a violin solo at the Christian church this evening.

Miss Alice Phillips will give a demonstration of the Dalcroze system of Eurhythmics at Recital Hall, Friday evening, October 16th.

Mary Daniels played a piano solo at a meeting of the Musical Club in Petersburg last week.

## CROSS ROADS.

G. W. Sheppard of Roodhouse visited his brother, J. J. Sheppard near Woodson last Thursday.

Mrs. C. O. Winters was a Monday eve visitor with her sister, Mrs. Carl Hemmrough.

Con Lonergan and Mrs. Virgil Sheppard of Murrayville were Sunday guests with Mr. Lonergan's brother near Jacksonville.

Mr. and Mrs. Will Hemmrough and Mr. and Mrs. Charles Hemmrough spent Monday afternoon with T. S. Hemmrough.

Miss Edna Sheppard of Jacksonville will leave for the east this week where she will take up her school work for the year. She will go to Boston.

Harris Simmons spent Saturday and Sunday with his friends, Earl Hemmrough.

Dr. R. R. Jones and family spent Saturday and Sunday with the Dr.'s brother, Charles, near Springfield.

## NOTES ON SPORTS.

A fine chance for "hunch" players is found in the fact that a Boston club has never been defeated in any important post-season series.

According to the Giants' line of talk, any team that beats them is lucky. About time that McGraw and his men put the old alibi away in moth balls.

E. M. (Ted) Lewis, who was a member of the Boston National champions of 1897-98, is now dean of the Massachusetts Agricultural college at Amherst.

For the past two seasons the Winston-Salem Carolina league champs, a Class D outfit, has defeated the Virginia league (Class C) pennant winners in post-season series.

The same old stuff. A story is going the rounds to the effect that the Tigers laid down in the games with the Red Sox in order that the Sox might gain on the Athletics.

Cravath, Magee, Luderus and Becker of the Phillies compose the greatest quartet of home run hitters in baseball, but they have been unable to wallopp their team into a championship.

Hinkey of Yale probably will be field judge at the Harvard-Michigan game Oct. 31.

Tom Enright, Exeter's star of last year, who has been called the greatest schoolboy football player in America, is now at Yale.

Manager George Murray of Princeton says the new stadium field at Nassau will be ready for use on Nov. 14, when the Tigers meet the Yale team.

Clarke, Penn state's punter, is already getting off drives of 60 yards. Penn state can always be relied upon to develop one or more gridiron stars.

Harvard and Yale students will be allowed to make application for four instead of two seats for the Yale-Harvard game. Two seats have been the limit for several years past.

Leach Cross and Gilbert Gallant will probably meet at the Atlas A. A. Boston, on Oct. 19.

Clarence Ferns and Bud Logan have been matched to box at St. Joseph, Mo., on Oct. 17.

Young Shugrue has signed to box three more bouts in Australia. The Jersey lightweight will get \$6,000, or the privilege of 25 per cent of the receipts.

The Johnny Kilbane-Abe Attell bout, which was to take place Oct. 13, has been indefinitely postponed because of an injury Kilbane received by being thrown from a horse.

Packey McFarland has retired from the ring for good. He intends to devote his time in future to looking after his wife's interest in an Illinois brewery inherited by her from her father.

## FRANKLIN.

J. M. Summers and wife of Jacksonville visited over Sunday with their daughter, Mrs. Aaron Jolly and family.

Miss Marie Austin returned Monday from a two weeks' visit with relatives at Champaign.

C. J. Whitlock and family were motor visitors to Jacksonville Sunday.

Mrs. Harvey Spireas was taken to the Passavant hospital last week, where she underwent a surgical operation Saturday.

Mrs. Cullom's mother and sister, Mrs. Scott and daughter, of Decatur are here visiting her.

Elmer Beerup and family left Tuesday for St. Louis where he will enter a dental school for the winter.

Misses Marie Austin and Gaynelle Olinger visited Jacksonville friends Tuesday.

Mrs. J. B. Perkins is spending a few days with her parents at Philadelphia.

Mr. and Mrs. Wayne Geer are visiting at the home of Mrs. Sallie Wyatt.

## LITTLE INDIAN.

Sam Ornes' family spent Sunday with Chas. Gustafson's family at Philadelphia.

August Anderson's family spent Sunday with his brother, Gust Anderson north of Virginia.

C. S. Green and wife spent Sunday with Peter Smith.

Mr. and Mrs. J. Asplund and Sam Fitzpatrick called on C. S. Green Sunday afternoon.

Ed Whitte run a hay fork in his foot a couple of weeks ago and is still suffering from the effects although he is better now.

Mrs. McHenry of Springfield spent Sunday with her sister, Mrs. Eppler this is her last visit before leaving for Florida to spend the winter.

Jesse Coons spent Sunday with Chas. Stevenson.

Mr. and Mrs. Martin Culllan and Mr. and Mrs. Ed Wilhite were in Virginia Tuesday.

Mr. and Mrs. Aug. Anderson spent Tuesday in Beardstown.

## SPECIAL SERVICES AT GRACE.

At Grace Methodist church the following services during October will be of special interest. The message will be of practical and hopeful. The music will be bright and worshipful: Oct. 4, a. m.—"The Conditions of Universal Peace." Day of prayer for peace. P. m.—"Making the Best of Self."

Oct. 11, a. m.—"The Church's Message and Mission." P. m.—"Wings and Hands."

Oct. 18, a. m.—"The Church's Institutions and Field." P. m.—"Life's Opportunity Seasons."

Oct. 25, a. m.—"The Church in Action." P. m.—"Worshipping at Wayside Shrines."

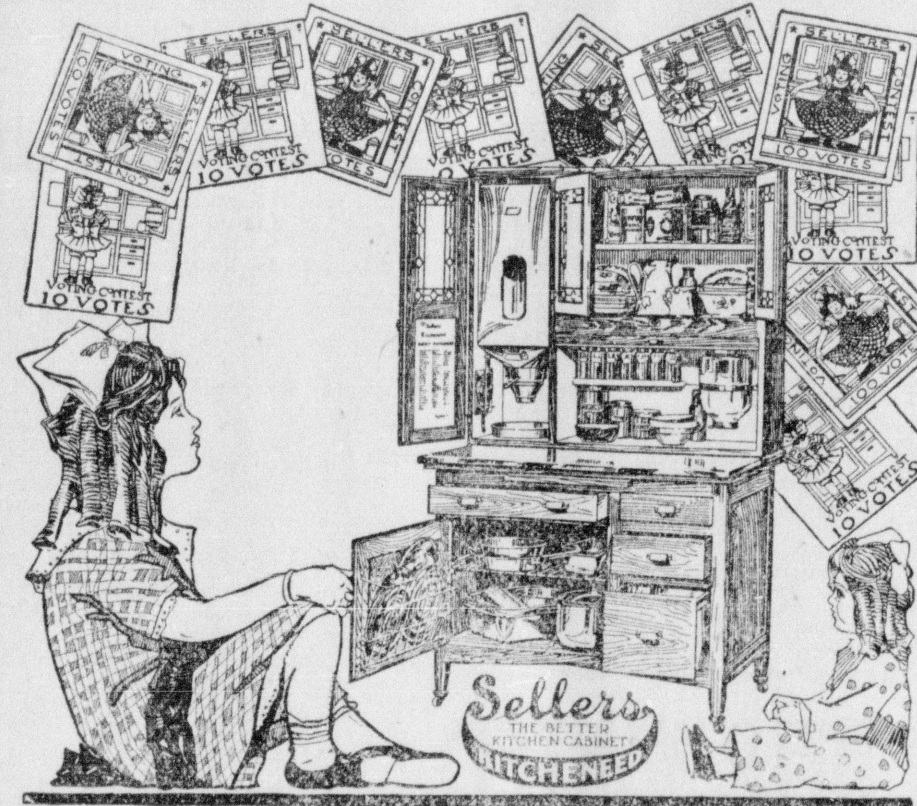

A special feature of the evening service will be the music, beginning with a fifteen minute organ recital, consisting of numbers from the concert repertoire, together with a song service by the church choir. All are welcome to these services.

J. W. Miller, Pastor.

## ANDRE & ANDRE

# A Junior Kitcheneed FREE to Some Little Girl

Has all the quality and features of the regular sized Kitcheneed, such as disappearing roll curtain, sliding metal top, glass sugar jar—everything as shown in the picture.

## How to Win the Junior Kitcheneed

In some small booklet get the names and addresses of women who would like to own a kitchen cabinet. For every one of these you will receive a Stamp good for 10 Votes. For every one of these that buys a Sellers Kitcheneed during the contest you will receive a Stamp good for 100 Votes. Another way is to get 10 votes of different dates, one of which is printed here, from the Daily Journal or Courier, or by calling at the store on the day following their appearance. For 10 of these votes we will give a ten vote stamp. The little girl who has the greatest Total Number of Votes at the end of the contest wins this Big Special Prize. Contest to run until October 17. Will you be that little girl? It is easy to get this wonderful prize.

# Fall Sale of "KITCHENEEDS"

Twice a year, spring and fall, we organize a special sale of Kitcheneeds. During this time we make a special effort to acquaint every person, man woman and child, with the exclusive features and value of these wonderful "Kitcheneeds," the better kitchen cabinet. This season especially with all the new improvements, we are sure that every person to whom we have an opportunity to show this "better kitchen cabinet" should and there is none other.

## The Better Kitchen Cabinet \$27.50 Up

Buy a Kitcheneed tomorrow and every day will be more enjoyable. You'll have less work to do and it will be better done in less time. Kitcheneeds are built to last a life-time—and that means a life-time of Kitchen Comfort.

Here Are Just a Few Exclusive Features of Sellers "Kitcheneed"

### Automatic Lowering Flour Bin

Fifty lbs capacity—has funnel shaped stir attachment, sitting into a teacup. Bin comes forward and swing down until filler opening is level with table top. Springs lift back flour bin when filled. The greatest improvement in kitchen cabinets—only on the Sellers Kitcheneed.

### Roller Sliding Top

Underneath the roller-bearing, easy-sliding top the Kitcheneeds comes equipped with a wood panel dust-proof partition. This is duplicated on the bottom, making the base an absolutely dust tight box. The metal covering of the top is guaranteed against buckling. Every effort is made to make the Kitcheneed the most sanitary and durable Kitchen Cabinet possible.

### New Ant Proof Casters

Strong steel casters, heavily nickel plated. Filling bowl above the casters with water, oil or powdered borax renders it impossible for ants or other insects to enter cabinet.

### Disappearing Roll Curtain

Sanitary Rolling Curtain—Instantly disappears, rolls up and out of the way. Keeps dust from provisions stored within cabinet. Patented metal slide construction can not stick. Guaranteed for the life of the cabinet.

### Complete Glassware Set

Sugar Receptacle with automatic outlet and graduated measuring cup. Seven Spice Jars, five with snap on covers, two perforated for salt and pepper also Glass Tea and Coffee Canisters. Snap on covers—slight pressure of thumb upwards all that is necessary to operate.

### Large Sanitary Base

The cut will give you but a slight idea of the neat appearing, sanitary base. Easy to sweep under without moving the cabinet. Your husband would not buy an old fashioned low-based desk for his office—why not get the latest sanitary ideas in Kitchen Cabinets?

### Dove Tail Built

This in connection with the other feature goes to make Sellers' Kitcheneeds the finest made cabinets in the world.

All joints of cases and drawers are dovetailed like a high-price dresser. This makes for far greater durability and service.

### Patented No-Spring Lock

All latches on the Kitcheneeds are made under exclusive patents. It is made of two moving pieces with 10 springs to wear out. Doors always stay shut.

### Compact Convenience

Everything you can possibly use in the kitchen right at your finger tips. Plenty of space for dishes, cutlery, pans, lids, etc.

### Plush Lined Tray

A feature only on the "Kitcheneed" is a removable plush lined knife and fork tray in the second base—drawer to the right. Place for rolling pin and cutlery in drawer above base cupboard.

Votes for Little Women Contest Closes October 17.

## ST. LOUIS MARKETS.

With a liberal run of hogs this week, the market declined from day to day and today with 10,000 on sale, opened 25c lower than yesterday's best time and closed dull and 10c lower than the opening, top \$8.65. Most of the good hogs sold \$8.50 to \$8.60; right fair grades of hogs with the packers sorted out went to the packers late in the day at \$8.20 to \$8.40, while rough packers brought \$7.50 to \$7.65; good weight pigs \$8 to \$8.35, light pigs, 7@8c. Look for fairly good receipts and expect still further decline in the near future.

Cattle receipts have been heavy this week and all markets have been liberally supplied. There has been no strictly choice steer cattle on sale. There were a few sales here at from \$10 to \$10.50, but the bulk of the steers this week were grassers from medium fleshed to pretty fat kinds. They show a decline generally of 25c to 40c and in extreme cases more. The good fat light choice yearling steers have been scarce and are steady, all other kinds unevenly lower, as compared with the close of last week, many sales showing 40@50c decline, the general decline averaging 25@40c. The real good

fat heavy cows selling 7c and above are almost steady, all other kinds 25@40c lower, with the exception of canners, which are selling steady and largely \$4.25@4.50. Stocker and feeder receipts have been liberal, not much country demand, and the market has been very draggy, values generally 15@25c lower on the pretty good kind, while the trashy kind are 25@35c lower as a rule. Bulls generally 10@15c lower; good milkers steady. Conditions are not at all favorable for an improved market next week and it will not be any better unless receipts materially slacken up. H. W. Mann.

## FORT EDWARDS.

WARSAW, Ill., Oct. 3.—Fort Edwards monument, erected in commemoration of the most western outpost during the war of 1812, has just been dedicated here.

The monument is fifty feet high, and may be seen for miles up the Mississippi river. It is built of granite, and the sides contain bronze tablets depicting Maj. Zachary Taylor, who built the fort, the stockade as it looked in 1814, and Gov. Edwards of Illinois, for whom it was named.

# The Care-Free Way to California

"I wouldn't go any other way," says everyone who has gone on one of our low cost "Person ally Conducted" parties to California, via Denver, Colorado Springs, Scenic Colorado and Salt Lake.

There's no worry about baggage or other travel detail, for our own special conductor goes all the way through, looking out for your comfort and explaining all about the points of interest as you pass along. Another advantage is that the schedules are so fixed that one passes all the best scenery in daylight.

The cheerful company of congenial people who go on these low fare parties adds greatly to the pleasure of the trip. No doubt you're planning to spend some time in California this winter, so stop in the first time you are going by, get your copy of our folder telling about our personally conducted parties to California and ask me any questions you want to about them.

## TOM J. DUFFNER HAS WEST SIDE CLOTHING STORE

Well Known Young Business Man  
Purchased Stock Before Sale  
Began—Will Shortly Open Up Entirely New Stock.

While it has been tacitly understood for a number of days that Thomas J. Duffner is the owner of the Breckon & Jenkinson stock of clothing and has conducted the successful sale which has been going on there for the past two weeks, definite announcement was not made of that fact until yesterday. Mr. Duffner purchased the stock from Garland & Co. the night before the doors of the store were opened for the sale which has been possibly the greatest one of the kind ever held in the city.

Mr. Duffner will continue the sale for a part of this week at least and will then stock the shelves and cases with entirely new high class goods and continue the store under the name of the Tom Duffner Company. Mr. Duffner has had thirteen years' experience in the business, is a very popular young man, of the budding, active type and he will undoubtedly meet with success in this new venture.

Phelps & Osborne offer for this week 50 New Fall Model Suits, new clothes, new colorings, sent as samples from two of the largest manufacturers in New York City with instructions to make our selections and then place them on sale not one to be returned. This will be your chance to secure your fall outfit at a bargain. During this special sale of suits we offer a line of ladies' silk dresses and wool dresses at special prices.

## ILLINOIS WINS FROM CARTHAGE

TAKES OPENING GAME BY A SCORE OF 7 TO 0.

Illinois Men Score Touch Down After Four Minutes of Play—Remainder of Game Characterized by Hard Playing Against Warm Weather—How They Lined Up.

Illinois college opened the football season at Carthage, Saturday afternoon, by defeating the college eleven of that city by a score of 7 to 0. It was the first regular game of both teams and was characterized by hard playing against the excessive hot weather for this time of the year. Illinois made their only touchdown after four minutes of play and after this the men settled down to an even tussle, neither side being able to make consistent gains. Carthage has a well balanced team, of good material, but lacked the punch to make a score. Illinois as a whole played as good football as could be expected after only two weeks practice, playing against a team that had a week longer to get ready. The small score by Illinois is not surprising when it is known of the small variety of attack which the I. C. men had at their command. Illinois is going on the plan of developing the team slowly and expect to have the men in mid-season form when mid-season comes. Consequently the Illinois men made no effort to have a finished team for this contest. The playing of Butcher, Allen and Helme, the new men on the team was all that could be expected of them in their first collegiate contest.

## How Score Was Made.

Carthage won the toss and chose to defend the north goal. Stewart kicked off for Illinois. Carthage made a mess of receiving the kick with the result that the Carthage man who finally picked it up was downed in his tracks. Illinois immediately held Carthage for downs and forced them to punt. Stewart caught the punt and made a nice return. Then by a series of line plunges by Alford and end runs by Wilson and Stewart, the ball was carried to the Carthage one yard line, from there Stewart carried it over, after only four minutes of play Frisbie kicked goal making the score 7 to 0.

The remainder of the game was a saw-saw contest, neither team being able to gain consistently enough to threaten either goal. Stewart's long distance punt kept the Carthage boys well away from the Illinois goal. Late in the last quarter Illinois carried the ball within striking distance of the Carthage goal, but lost it on the fifteen yard line, where a forward pass was attempted.

## The Line Up.

The following was the lineup:  
Carthage Position Illinois  
Meyers L. E. Pierce  
Gent (Capt.) L. T. Mitchell  
Harris L. G. Butcher  
Ebright C. A. Atkinson  
Wadding R. G. Allen  
Windman R. T. Frisbie  
Simmons R. E. McLaughlin  
Zoeckler R. H. B. Wilson  
Lambert L. H. Helme  
Runyon Q. B. Stewart, Gary  
Summary—Touchdown, Stewart. Goal for touchdown, Frisbie, Time of quarters, 10 minutes.  
Officials—Raymond, (Lombard), Referee; Wells, (Milklin), Umpire, Clarke, (William and Vashit), headlinesman.

Special, this week, at Phelps & Osborne's, five pieces 72-inch satin table damask, new patterns, \$1.25 value at \$1.00 the yard; \$1.50 values at \$1.20 per yard. Napkins to match, \$5.00 values, \$3.98 per dozen; \$4.00 values, \$2.59 per dozen.

## LOCAL WOMAN AUTHOR OF ILLINOIS STATE HISTORICAL PUBLICATION

Miss Georgia L. Osborne Compiler of Genealogical Work in Historical Library at Springfield—Shows Progress in New Department.

"A List of Genealogical Works in the Illinois State Historical Library" is the title of a neat 163 page quarto from the pen of Miss Georgia L. Osborne, assistant librarian, and chairman of the committee on genealogy and genealogical publications, Illinois State Historical society. The matter in the volume is well arranged with adequate index and cross-index and shows the compiler to be well versed in bibliographic practice. Books of local history and general biography are classified by states in the first part of the publication and family histories proper, alphabetically arranged, follow.

One of the valuable phases of the work of Miss Osborne's department is the compiling of the list of Revolutionary soldiers buried in Illinois. "This" as stated in the preface, "is the painstaking and careful work of Mrs. Edwin S. Walker, a member of the Illinois State Historical society, assisted by members of the local chapters of the Daughters of the American Revolution, and is being published in the Quarterly Journal of the Illinois Historical Society, begun in the April Journal, 1912." The following counties only have so far been canvassed: Cass, Clark, Cook, Greene, Macon, Madison, Menard, Iroquois, Peoria, Sangamon, Morgan and Warren.

The department of genealogy in the state historical library is but six years old but compares favorably even now with such work in older states. As time goes on the department will be of increasing aid to the genealogical student.

## WIRE FENCE QUALITY

By GEORGE S. GAY.

There is no fence on the market that can compare with the "AMERICAN." No other fence has a better galvanized. It is the strongest and heaviest fence made. Large hinge joint stays, heavy tough steel wire, made by the largest manufacturers of wire in the world with twenty-seven factories running day and night, making fifty thousand miles of fence a month, four times more than all other kinds combined. Eighty per cent. of all the wire fence made in the United States is "American." More American is sold in Morgan County than all other kinds combined. Heaviest and best galvanized fence made. Weighs More, Costs More, Worth More.

## FARMERS PLAN CLUB FOR MUTUAL ORGANIZATION

Committee Appointed During Chautauqua Held First Meeting Saturday—Committee Will Be Named to Outline Organization.

The committee of farmers representing the various townships of Morgan county appointed at the time of the chautauqua to take the necessary steps for the organization of a Morgan County Farmers' Club, held a meeting Saturday at the court house. Charles S. Black, chairman of the committee, presided, and practically all of the members were present, the committee including William Mau, Lester L. Hart, Fletcher Blackburn, Harold P. Joy, Alfred G. Brockhouse, William F. Roegge, George H. Hall, H. J. Rice, Charles A. Rowe, G. A. Leach, Chas. E. Drake, Philip Shanley, E. D. Scott, E. R. Hembrough, Alex. Ranson, Lester D. Deatherage, F. M. Spires, J. E. Osborne and M. L. Robinson.

Various matters related to farmers' organizations were discussed in an informal way at this meeting and the only definite action taken was the authorization of the chairman to name a committee on organization. Mr. Black has not announced this committee but will make the personnel known within a few days, and the committee is to meet at his call.

It was also the understanding that when the committee on organization is prepared for a meeting that some speaker from out of town will be secured to outline the work which is being done by farmers' organizations in various other localities. It is probable that Dr. Hieronymus of the University of Illinois will be secured as he is entirely familiar with the general movement of organization among the farmers and is in close touch with what is being attempted and accomplished throughout the various parts of Illinois. It is true, also, that even more has been done by organization in some other states than has yet been attempted in this state.

There can be no question but that organization among the farmers can be productive of very beneficial results for the members. The organization provides for an interchange of experiences and also lessens the cost of making experiments, and in many communities farmers working together have been able to cut the cost of seed very materially.

Aside from these things, in some other states, it has been found very practical and beneficial for the farmers of a given county to adopt some specific type of seed or of live stock and make a specialty of it. In this way if a certain locality becomes established and known as the home of a certain type of grain or live stock, that grain or live stock has a higher market value than that which is ordinarily produced. This has been demonstrated successfully in some parts of Missouri, where certain counties have specialized on raising mules, and in certain counties the farmers working conjointly have produced especially high class oats or wheat. But in these days there is no necessity for arguing about the benefits of an organization which is working to the common end of helping those who are united in the work.
